SUMMIT
2021**

About Take 3

Take 3 are Australian leaders in removing plastic pollution and waste from the environment. Take 3's message is simple: Take 3 pieces of rubbish with you when you leave the beach, waterway or... anywhere. Through education that inspires participation, Take 3 are making tangible improvements to the health of our planet.

8 million tonnes of plastic enters the ocean every year. Plastic does not belong in the ocean. Plastic poses serious health threats to marine life through ingestion and entanglement. The Take 3 movement reduces plastic pollution by 10 million pieces every year.

Youth Summit

The Youth Summit will be held 7 - 8 June, 2021 at the Taronga Zoo Institute of Science and Learning. Over two action-packed days, 200 student leaders from 50 schools around NSW will assemble to learn from industry experts and youth leaders. Students will walk away with Community Action Projects developed at the summit workshops to engage their school communities in plastic pollution education and reduction. The projected outcomes are:

16,000
